5 Year Warranty

All current models of Belmont dental chairs have been through **vigorous durability testing** prior to mass production ensuring total reliability for the operator.

Each chair design has been tested to a ten-year life cycle of use, with 108,000 movements fully loaded to the chair maximum safe working patient weight to regulation IEC60601-1/ ISO 6875 specification.

(Which is equivalent to: 10 Years x 240 Days per year x 15 Patients per day x 3 chair movements per patient).

Takara Belmont (UK) Ltd Warranty Policy

5 Year Warranted Products

All Belmont treatment centres, individual chairs, units and dental lights are warranted for a period of five years from the date of delivery to the original owner. The warranty covers mechanical, electrical and workmanship faults, under normal working conditions.

Upholstery, paintwork, plating and all handpiece hoses are not warranted, unless they are reported to Takara Belmont (UK) and proved to be defective at the time of delivery. Failure due to natural wear and tear of any component is not warranted.

OEM factory build-in options (ie: fibre optics, scalers, motors, separators, CVS Kits etc) carry a warranty as recommended by the individual manufacturer.

2 Year Warranted Products

All Belmont intra oral x-rays are warranted for two years from the date of delivery to the original owner. The warranty covers mechanical, electrical and workmanship faults, under normal working conditions. Paintwork and plating are not warranted unless they are reported to Takara Belmont (UK) and proved to be defective at the time of delivery.

Takara Belmont (UK) Ltd are not responsible for any failure caused by misuse of the equipment or damage caused due to poor installation by a non-authorised company.

The warranty policy applies to equipment purchased from and installed by an authorised Takara Belmont (UK) Ltd dealer. Labour will be charged on warranty work after the first year.

Hygiene & Care

In order to maintain & prolong the longevity of your Belmont equipment, we highly recommend using our Hygiene & Care products. (See page 43)

PLEASE NOTE: ISO 13485 Certification

All of our dental products are supplied with a full EU Declaration of Conformity and certification to the standard complying with ISO 13485. Any modifications or alterations made after certification may affect your warranty as the responsibility for EU Declaration of Conformity and electrical safety will transfer to the modifier.

Belmont Dental are delighted to bring implantology integration as a built-in option to **all Eurur treatment centres**

Automatic bowl-flush & cup filler
Bottled water system with water low warning
LED on cup filler spout casing
Durr spittoon valve

Important:

Maximum loom length between module or cart to the chair is 6.7metres (standard is 2.7metres).

Please read before placing your order:

When ordering a Flexible Treatment Centre, it is imperative that you order the correct item – either a **Cabinet Mounted Module or Mobile Cart**.

If the **incorrect item** has been entered onto your purchase order and delivered to you, the cuspidor and delivery unit will need **returning to Takara Belmont (UK) Ltd** (before unpacking). Two completely new items will need to be manufactured to the correct specification, which will cause delays for your installation at the dental practice, and cost implications may be incurred.
